## STAINLESS STEEL SINGLE-IMPELLER SURFACE PUMPS

Single impeller pumps fully made of stainless steel suitable for domestic, agricultural and industrial applications. All parts which are in contact with the pumped liquid are in Aisi 304 stainless steel in order to grant a maximum hygiene and resistance against corrosion.

### **LIMITS OF USE:**

Max Temperature of liquid: 90°C (60°C for CX/50, CX/80 and CX/100)  
110 °C in H-HS versions

Max suction depth: 7 mt

### **CONSTRUCTION MATERIALS:**

Pump body, impeller, diffusers: stainless steel Aisi304 (or Aisi 316L)

Motor shaft: stainless steel Aisi 303;

Motor casing and casing: alluminium

Mechanical seal: Cer/Car/NBR (standard)

Car/Car/FPM (H version)

Sic/Sic/FPM (HS version)

Tungsten Carb/Tungsten Carb/FPM (HW version)

### **ELECTRIC MOTOR:**

- 2 poles, close type with external cooling fan, insulation class F, grade of protection IP55.

- Standard voltages: M = 230/240-50; T = 230/400-50

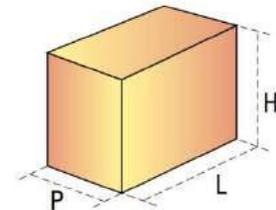

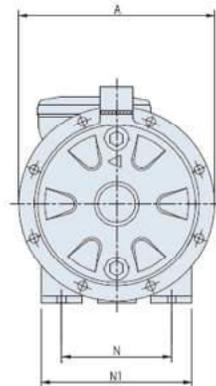

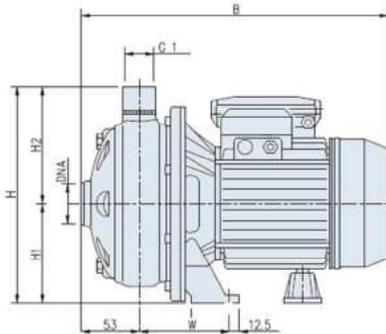

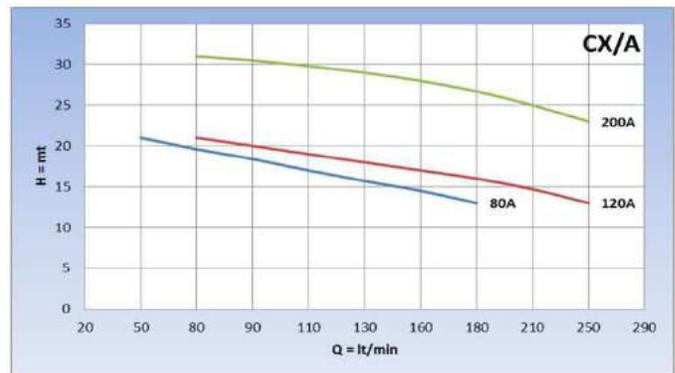

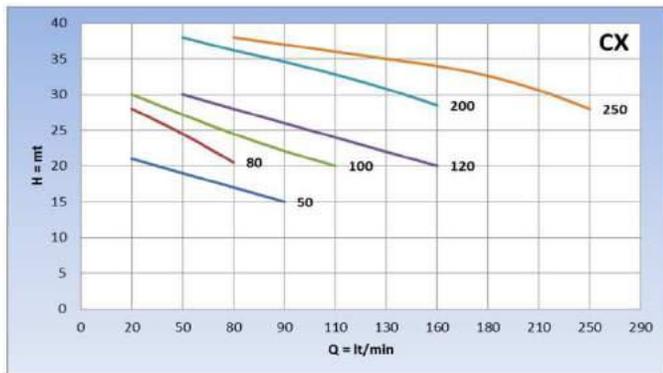

- Single phase motors is fitted with thermic microswitches to avoid damages to the motor. The protection of three-phase motors have to be arranged by the user.

- Different voltages and frequency available on request
